## Tutoring Experience

I've worked extensively with students from various international backgrounds, specialising in IB and A-Level Biology. Over the past 7 years, I've helped students develop a deep understanding of complex biological topics, guiding them to excel in their exams and coursework.

In addition to IB and A-Level, I have also tutored students in IGCSE and AP Biology, tailoring my lessons to fit each curriculum. My experience includes working with students who have gone on to study at top universities, and I take pride in seeing their progress and achievements.
